

Last updated: 22 September 2021

This document will help students keep track of weekly tasks

For week 1 (22 Sep - 29 Sep)

- Submit the Google form
- Register yourself on Ilias
- Start watching "getting started" podcasts for the frontend and backend scaffolding

For week 2 (29 Sep - 6 Oct)

- Get to know your teammates
- Get in touch with your assistant
- Finish watching all the podcasts
- Get familiar with the requirements for the first milestone (ask assistants if you have any doubts)
- Finish exercise 1 collaboratively (kindly refer to detailed deliverables document for the exercise description and detailed submission instructions)
- Start installing the project locally and getting familiar with the source code (podcasts will help you)
- Start implementing **if** you are confident and enthusiastic (otherwise, you can focus on the exercise task)

For week 3 (6 Oct - 13 Oct)

- Get yourself familiar with GitHub projects or Trello and decide among your team which tool you want to use for project management
- Finish implementing the authentication feature (soft deadline- don't panic if you don't manage to finish the implementation in this week! Podcasts will help you with the implementation)
- Milestone one ends on 13th October 2021

Week 4 (13 Oct - 20 Oct)

- Finish exercise 2 collaboratively
- Get familiar with the requirements for the first milestone (ask assistants if you have any doubts)
- Focus on the implementation

Week 5 (20 Oct - 27 Oct)

- Finish exercise 3 collaboratively
- Focus on the implementation

Week 6 (27 Oct - 3 Nov)

- Finish exercise 4 collaboratively

- Finish implementing the fan posts feature (soft deadline- don't panic if you don't manage to finish the implementation in this week!)
- Milestone 2 ends on 3rd November 2021

Week 7 (3 Nov - 10 Nov)

- Get familiar with the requirements for the third milestone (ask assistants if you have any doubts)
- Finish exercise 5 collaboratively
- Start implementing the requirements for milestone 3

Week 8 (10 Nov- 17 Nov)

- Focus on the implementation

Week 9 (17 Nov - 24 Nov)

- Focus on the implementation

Week 10 (24 Nov - 1 Dec)

- Focus on the implementation
- Finish implementing the webshop feature (soft deadline- don't panic if you don't manage to finish the implementation this week!)
- Milestone 3 ends on 1st December 2021

Week 11 (1 Dec -8 Dec)

- Finish exercise 6 (cost estimation) collaboratively
- Finish the entire project implementation
- **If** you are enthusiastic and want to score "extra" points, then implement a surprise feature
- Start preparing for the final presentations

Week 12 (8 Dec - 15 Dec)

- Nothing except project presentations

Week 13 (15 Dec - 22 Dec)

- Nothing except project presentations
